⁷ Summary

⁸ Plate tectonics ... subduction zones ... volcanoes, earthquakes,... metamorphism temperature control ([van Keken & Wilson, 2023](#))

¹⁰ Statement of need

¹¹ FEniCS-SZ is cool and is based on Wilson & van Keken ([2023](#)).

¹² FEniCS-SZ is intended also for classroom use and augments the FEniCSX Tutorial ([Dokken, 2023](#)), which is itself built on the FEniCS Tutorial ([Langtangen & Logg, 2016](#)).:

State of the field

Software design

¹⁶ Research impact statement

¹⁷ AI usage disclosure

¹⁸ No information or code was harmed by AI.
